COMPANY PROFILE.

XENON COMMUNICATION SDN BHD
A NEW FREEDOM OF SECURITY

XENON SECURITY is a sister company of L S ANG COMMUNICATION SDN BHD established in 2013 . The company has a clear vision from the beginning which is to provide a hassle free anduninterrupted security solution to their clients

COMPANY HISTORY

XENON SECURITY is a sister company of L S ANG COMMUNICATION SDN BHD established in 2013 . The company has a clear vision from the beginning which is to provide a hassle free and uninterrupted security solution to their clients. The company started by selling individual security surveillance cameras (CCTV) to individual clients.

”

The company later saw a financial issue commonly faced by the clients that delays and minimize the purchase and put their client at risk. Thus, XENON SECURITY came out with a new idea and introduce a comprehensive and easy payment (lease to own) solution to their clients which enables their clients to pay in monthly basis and own the equipment by end of the contract tenure.

With the strong technical background in L S ANG COMMUNICATION SDN BHD for the past 20 years, the company now successfully managed to established themselves at the forefront of the industry as a one stop security surveillance camera CCTV solution including installation, maintenance, relocation, and consultation from individual housing to high-rise building (condominium, commercial building and hotels) in Klang Valley area.

VISION

To provide a hassle free and uninterrupted security solution to our clients.

MISSION

01.

To provide a secure and uninterrupted security solution to our clients

02.

To ease our client cash flow by providing easy payment solution while allowing them to own a security system

03.

We strike to serve as a role model to others who are in the same industry
